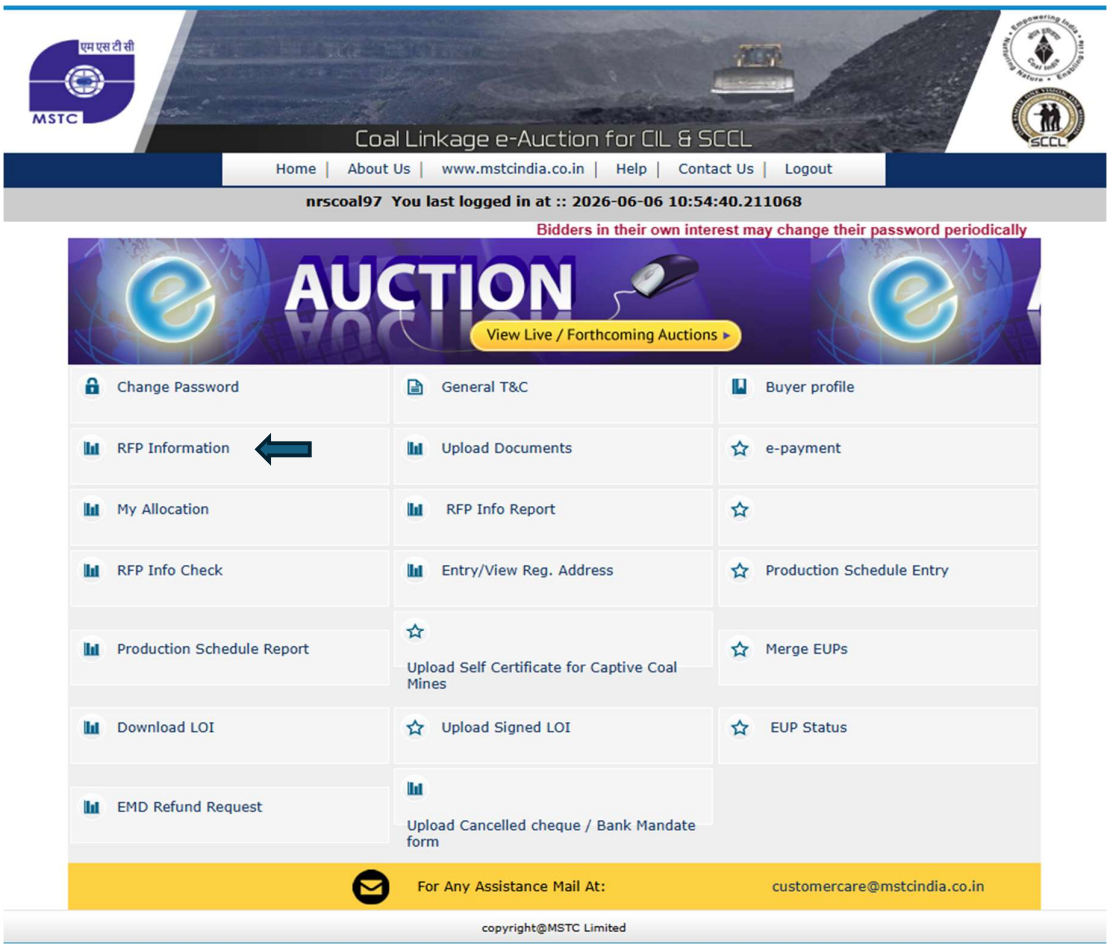
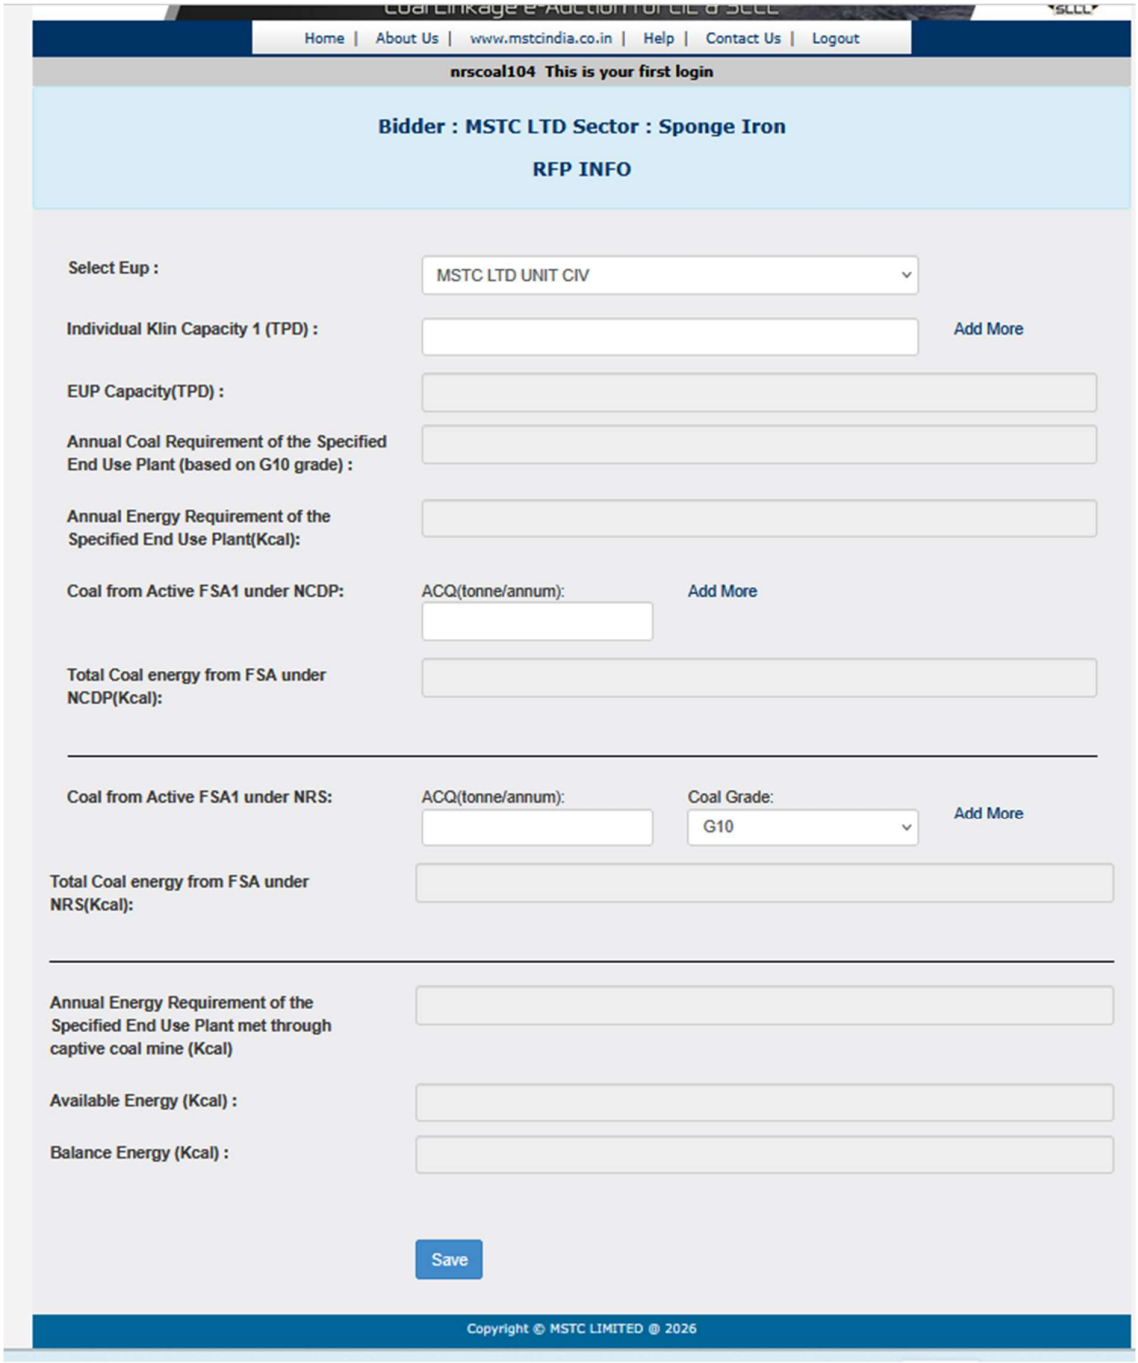
Click on **Home**



Click on **RFP Information**

Select EUP

- **For Merged EUPs case,** please select the EUP for which RFP is to be submitted. Bidder shall enter RFP for each EUP separately.



If more than one Unit exist in single EUP then click **Add More** to generate additional row as shown below: -

The screen will have space for the bidder to type individual Kiln capacity(TPD)

RFP INFO

Select Eup :	MSTC LTD UNIT CIV	
Individual Klin Capacity 1 (TPD) :	50	Add More
Individual Klin Capacity 2 (TPD) :	40	Delete Row
EUP Capacity(TPD) :	90.00	
Annual Coal Requirement of the Specified End Use Plant (based on G10 grade) :	45374.06	
Annual Energy Requirement of the Specified End Use Plant(Kcal):	201914578125	
Coal from Active FSA1 under NCDP:	ACQ(tonne/annum): 50	Add More
Coal from Active FSA2 under NCDP:	ACQ(tonne/annum): 150	Delete Row
Total Coal energy from FSA under NCDP(Kcal):	890000000	

Coal from Active FSA1 under NRS:	ACQ(tonne/annum): 100	Coal Grade: G10	Add More
Coal from Active FSA2 under NRS:	ACQ(tonne/annum): 150	Coal Grade: G1	Delete Row
Total Coal energy from FSA under NRS(Kcal):	1517500000		

Annual Energy Requirement of the Specified End Use Plant met through captive coal mine (Kcal)	0
Available Energy (Kcal) :	2407500000
Balance Energy (Kcal) :	199507078125

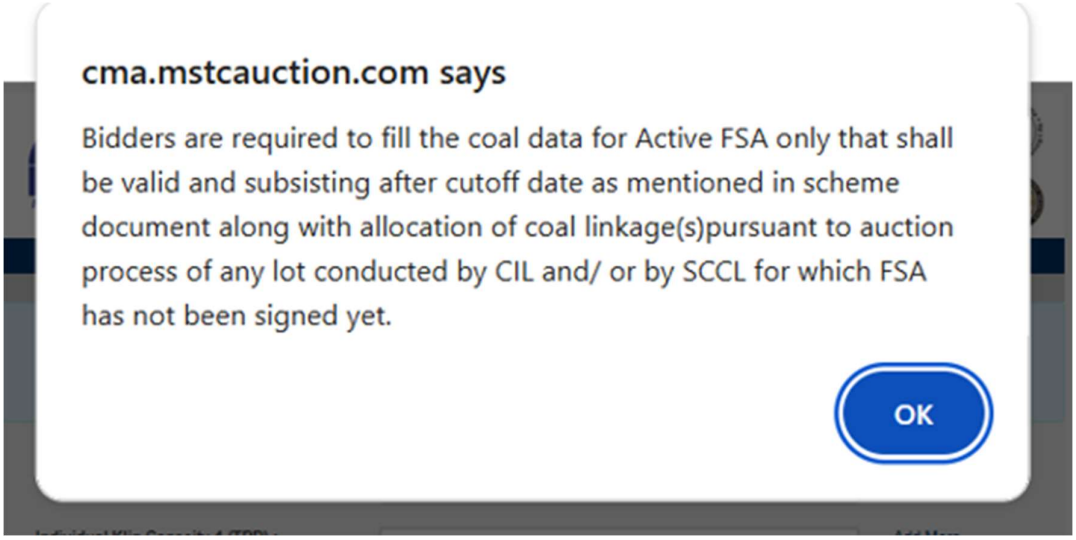
Save

After filling individual capacity , total capacity of EUP gets calculated, the system shall auto calculate and display the annual quantity of G10 grade coal required annually as well as the annual energy requirement (Kcal).

Bidder shall then fill up the details against Coal from Active FSAs under NCDP (If Applicable)

System shall prompt following message prior to entry of details against Coal from FSAs under NCDP

"Bidders are required to fill the coal data for Active FSA only that shall be valid and subsisting after cutoff date as mentioned in scheme document along with allocation of coal linkage(s)pursuant to auction process of any lot conducted by CIL and/ or by SCCL for which FSA has not been signed yet"



Bidder shall proceed accordingly.

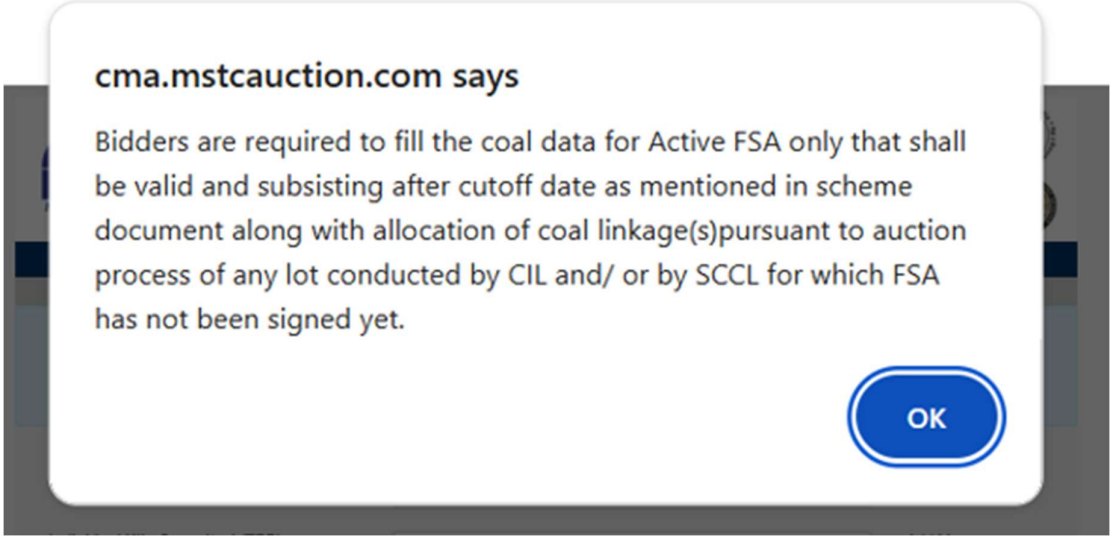
If more than 1 FSA exist, click Add More to generate Additional Rows.

Similarly, Bidder shall then fill up the details of Coal and Grade of coal against Active FSAs under NRS (if applicable)

System shall again prompt following message prior to entry of details for Coal from Active FSAs under NRS

"Bidders are required to fill the coal data for Active FSA only that shall be valid and subsisting after cutoff date as mentioned in scheme document along with allocation

of coal linkage(s)pursuant to auction process of any lot conducted by CIL and/ or by SCCL for which FSA has not been signed yet"



If more than 1 FSA exist, click Add More to generate Additional Rows.

Based on these inputs, the system shall calculate **Available Energy (Kcal)** which is sum of Total Coal Energy from FSA under NCDP and Total Coal Energy from FSA under NRS and Total Coal Energy Coal Mines.

Balance Energy (Kcal) that the bidder is eligible to bid is equal to

Annual Energy Requirement (Kcal) minus **Available Energy (Kcal).**

Then, click on save Button and following screen will be displayed.

NOTE:- On saving RFP, RFP information will be frozen, and no further modification shall be allowed. Bidders are therefore advised to carefully review and verify all details before saving RFP.

No.	Grade	Max Quantity(Tonne/ Annum)	Bid Security and Process Fee for Max Quantity at Rs 200.0/tonne for CIL NRS auction	Bid Security and Tranaction Fee for Max Quantity at Rs 105/tonne for SCCL NRS auction

15.	G15	67629	13525903.60	7101099.39

Please check the data submitted by you above carefully before proceeding. If you are sure, click on Proceed to make final submission or close the window to Cancel.Once the data is submitted, no further modification shall be allowed. The bidder shall be solely responsible for any mistake made in submission of the data.

Proceed Cancel

The screen displays the maximum quantity of coal in each grade from G1 to G15 that the bidder is eligible to bid based on the information provided by it in the previous step. The system also displays the amount to be deposited by the bidder to be able to bid for the maximum quantity of coal in each grade.

The bidder should read the text in RED colour before clicking on the Proceed button. The bidder may click the Cancel button to go back to the previous page.

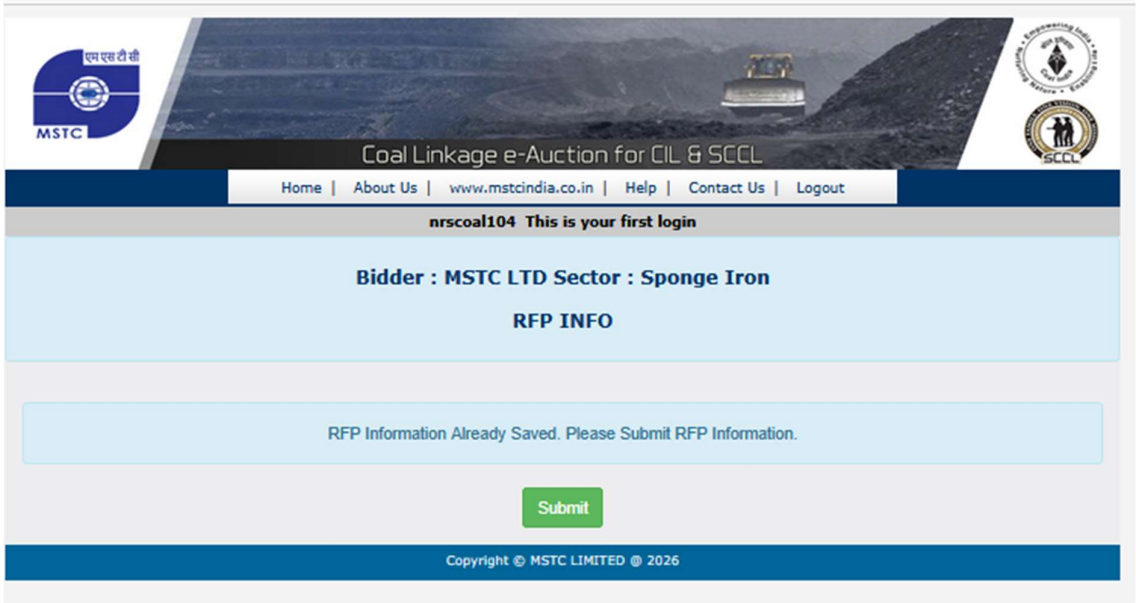
On clicking the Proceed button, the data will be saved and can't be changed any more. The Save button will get disabled.

On clicking OK, the data entered shall be saved.

OK Cancel

Click on Ok

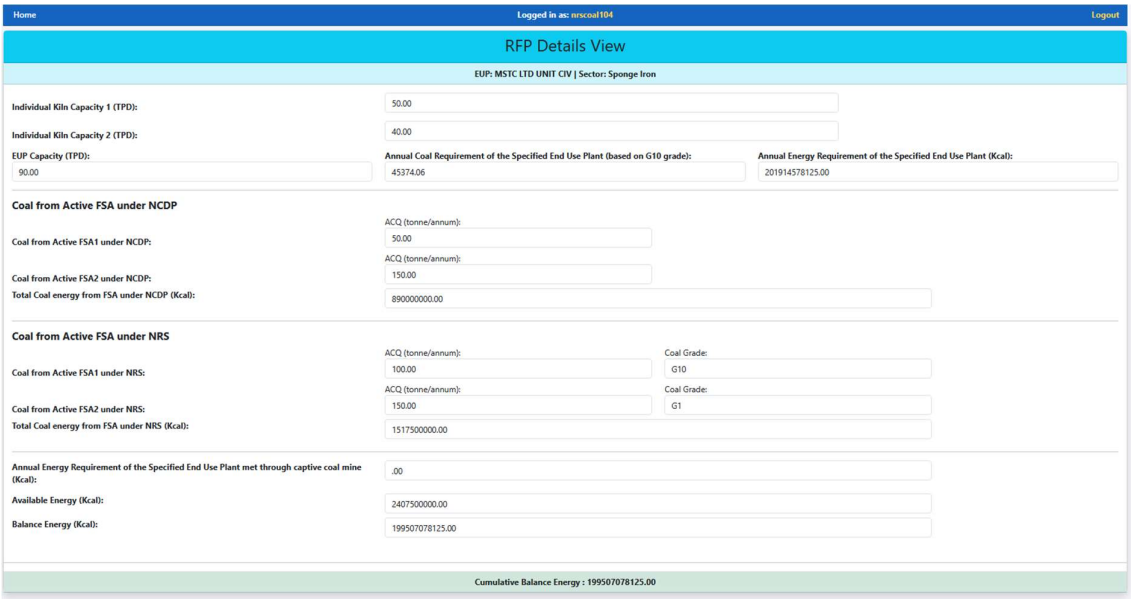
Click on Ok



Prior to submit, those bidders who have captive coal mines shall upload self-certificate for captive coal Mines and enter the production schedule.

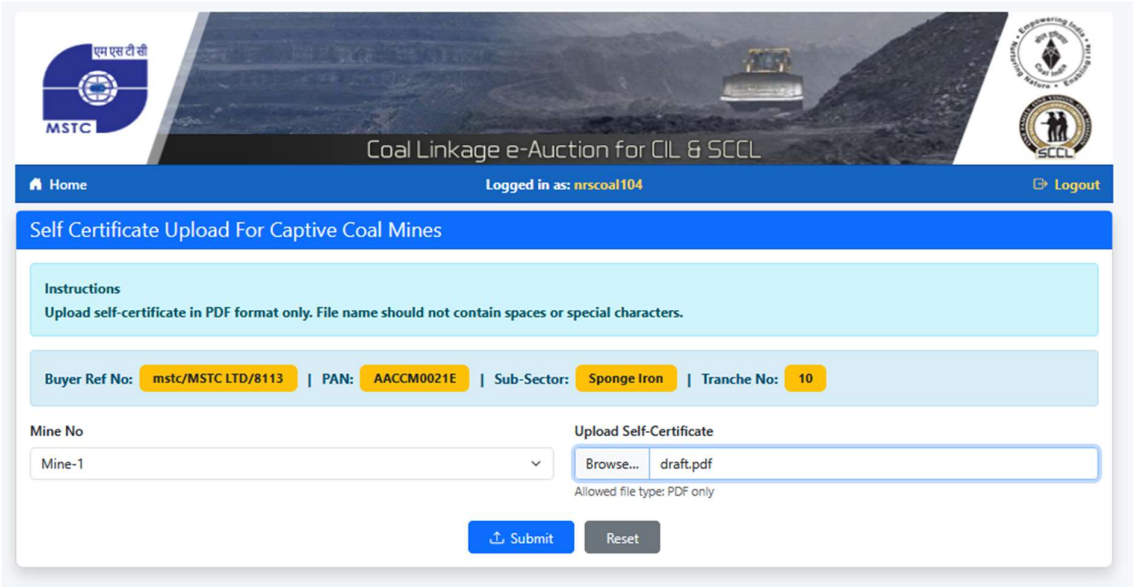
Bidders not having coal mines shall proceed to Submit

After RFP submit, Bidders not having Coal Mines can check their RFP details under RFP Info Check link.

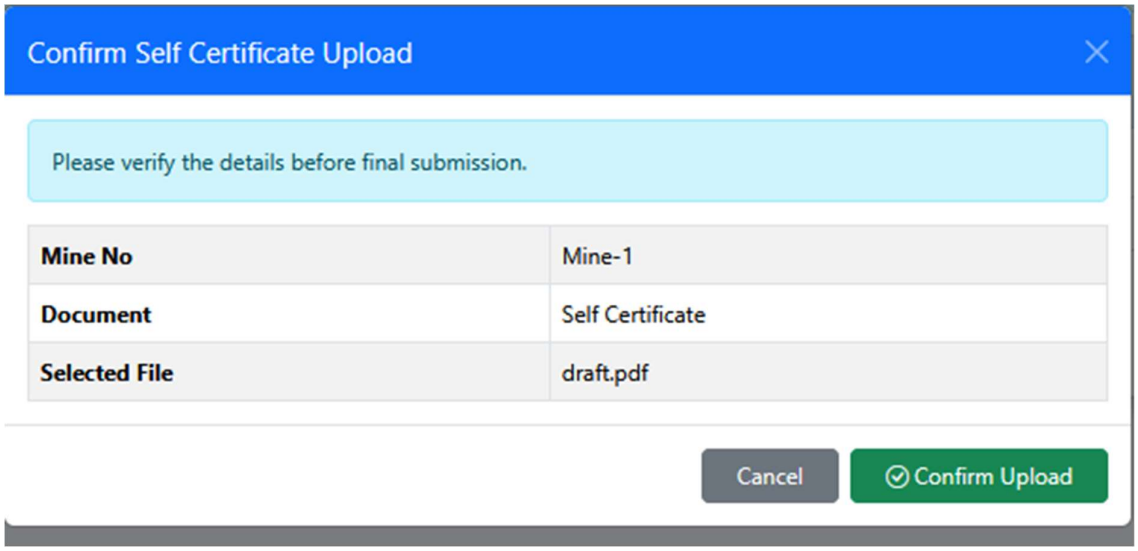


Bidders having Captive Coal Mines

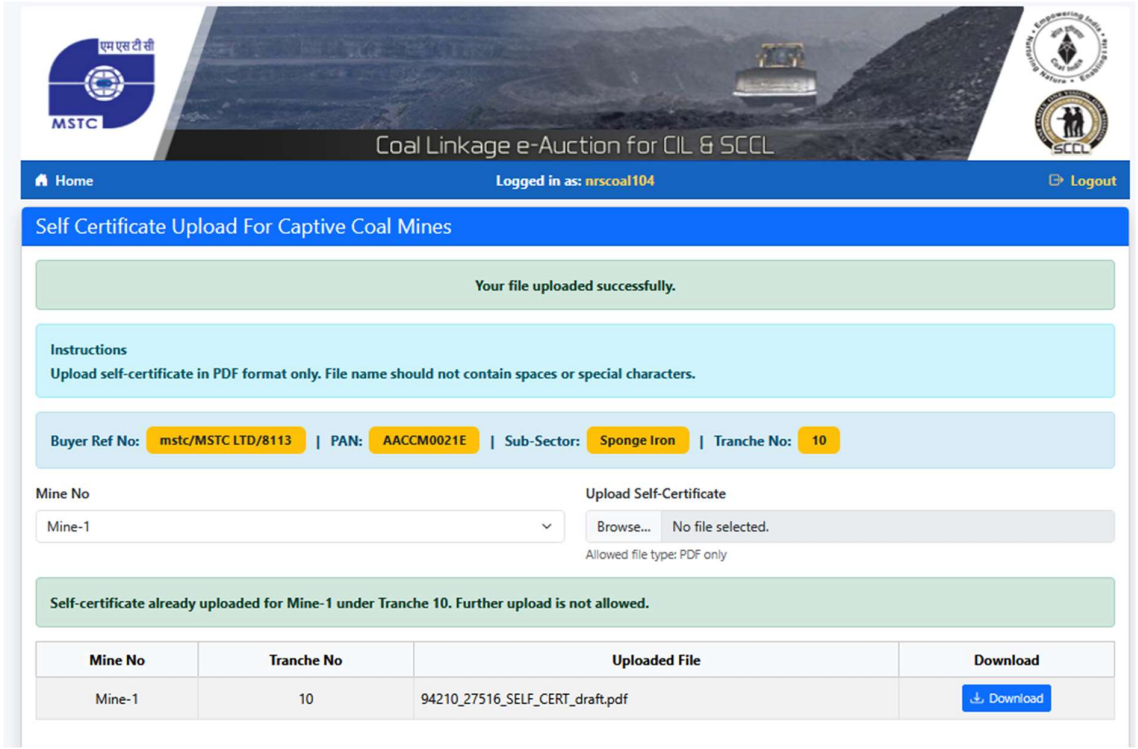
Those Bidders who have captive coal mines shall proceed to upload of self-certificate for captive Coal Mines via “Upload Self-Certificate for Captive Coal Mines” present in bidder dashboard.



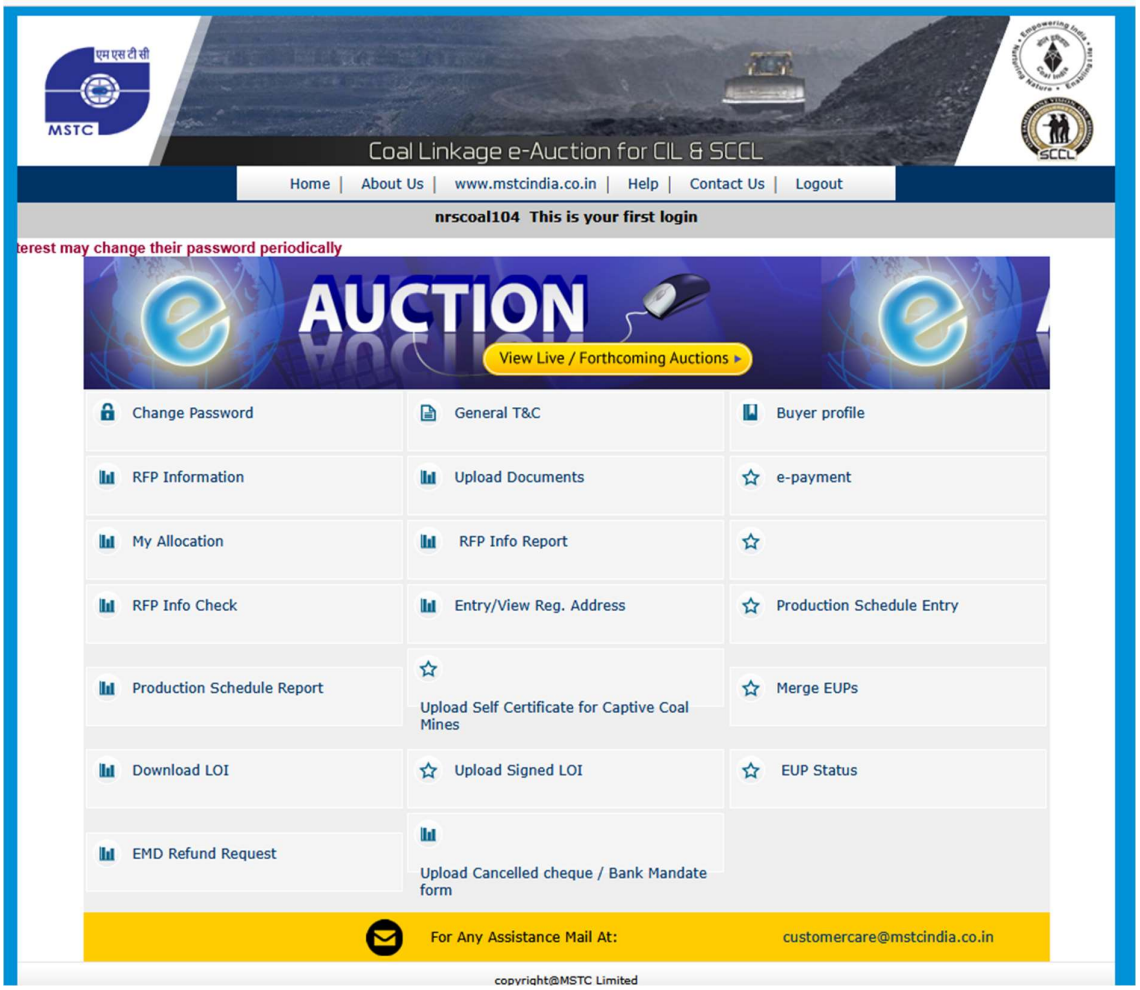
Click on **Submit**.

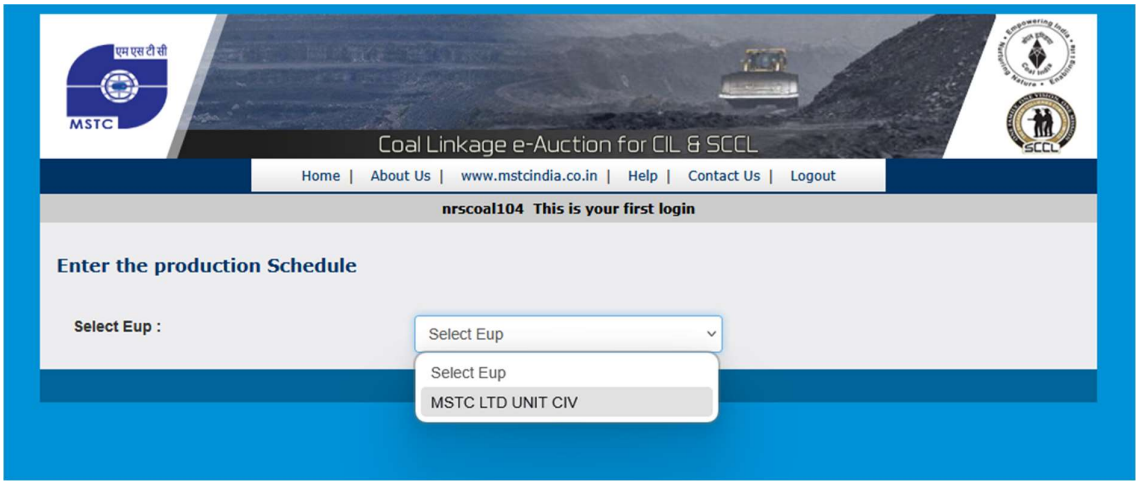


Click on **Confirm Upload**



After uploading of self-certificate, Bidder shall proceed for Production Schedule Entry.





- Bidder shall select the EUP

- **For Merged EUPs case**, please select the EUP from dropdown for which Production schedule is to be entered.

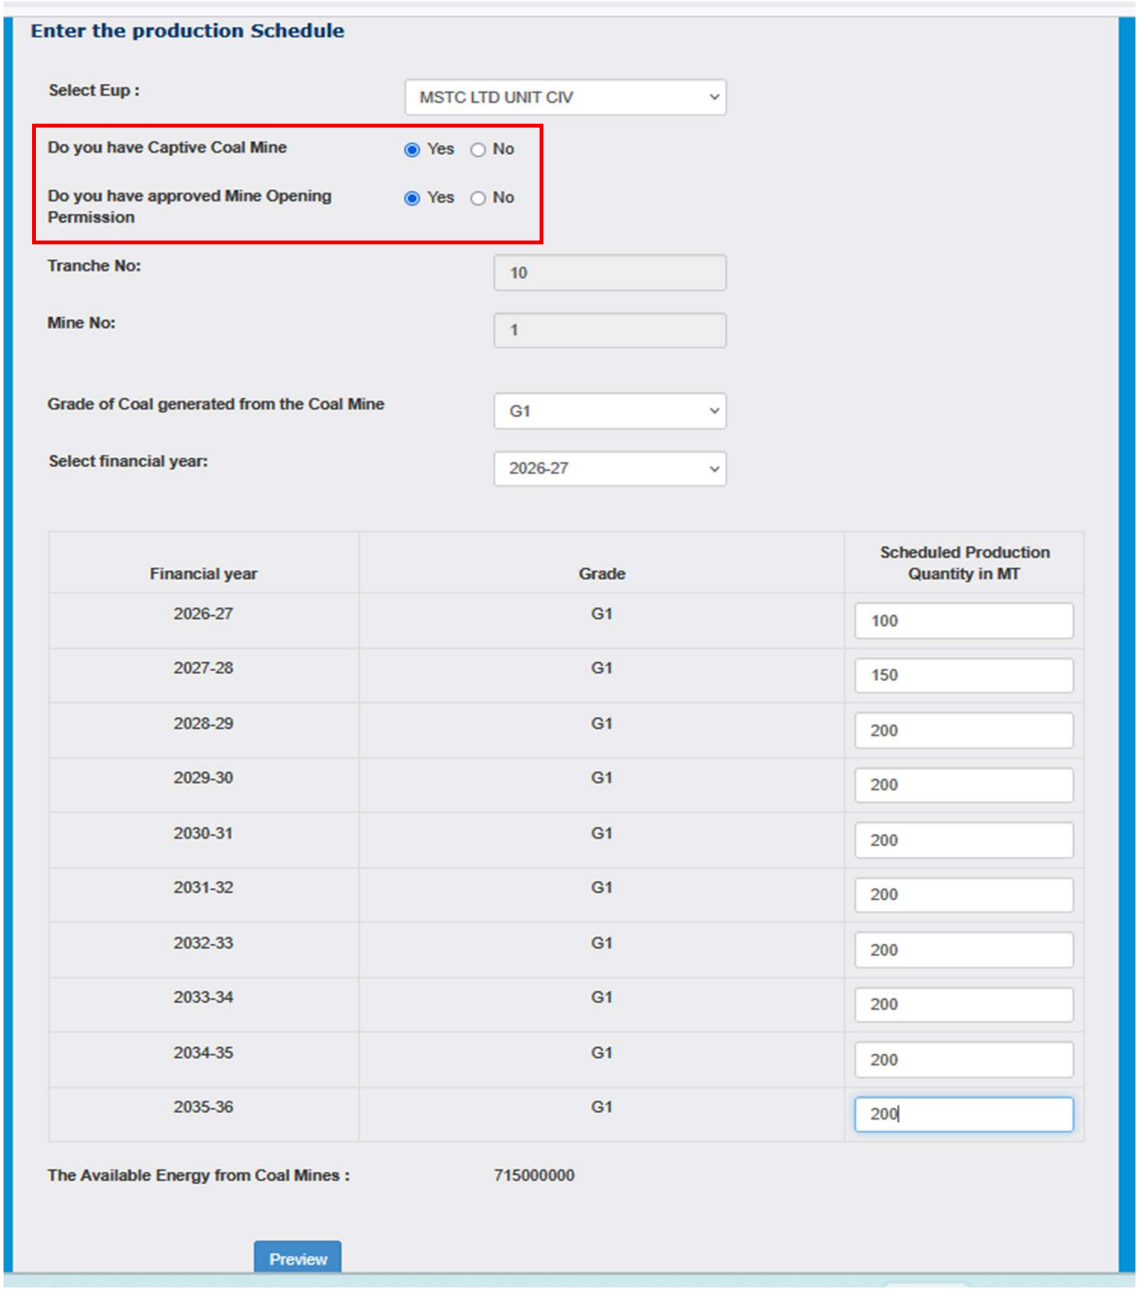
  The bidder has to be very careful during selection of radio button for selection of following questions

  "Do you have Captive Coal Mine" and "**Do you have approved Mine opening permission"**

  On clicking "No" in any of the above questions, the bidder shall not be allowed to proceed further for entering the production schedule for the EUP selected.

  THEREFORE, THE BIDDERS ARE ADVISED TO EXERCISE MAXIMUM CAUTION DURING SELECTION OF THE HIGHLIGHTED QUESTIONS RELATED TO CAPTIVE COAL MINE AND MINE OPENING PERMISSION.

Sample of Filled Production Schedule for reference to those bidders who have Mine opening permission is given below: -



Enter the production Schedule

Select Eup : MSTC LTD UNIT CIV
