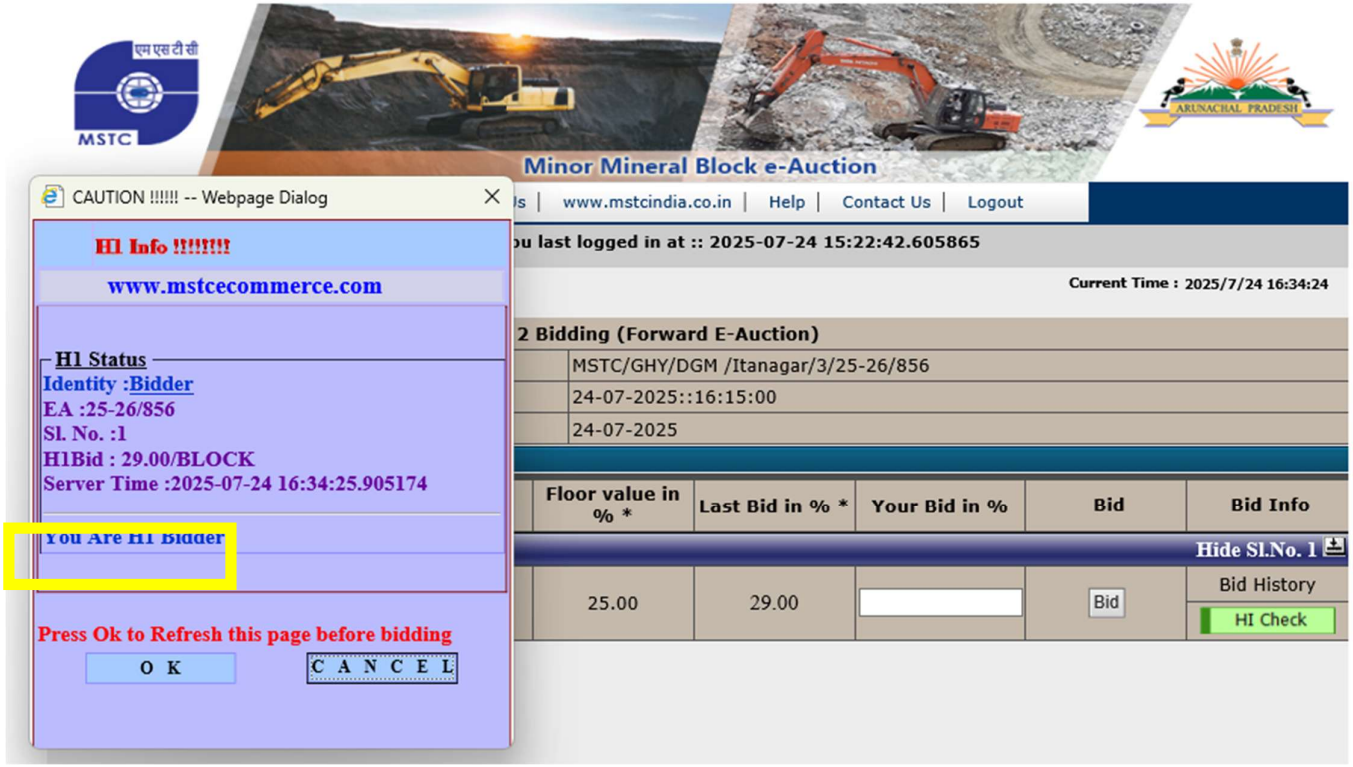
Floor Price is the start bid of the e-auction. Floor Price is the highest IPO received in the Stage 1 E-Tender. Highest bid during the e-auction appears on screen under 'Last Bid in INR'. Although the web page will get automatically refreshed, bidders are suggested to keep on refreshing the webpage.

Bidders can check whether they are H1 bidder or not by clicking on the H1 Check button.

Following pop up message will appear if your bid is highest.



You may revise your bid upwards any number of times during the forward e-auction. E-Auction will be on floor till its scheduled closing time. However, it may extend in auto extension mode also. Auto Extension time is 5 Minutes. i.e. if any bid is received during the closing 5 minutes, e-auction closing time will be extended by another 5 minutes from the point of receipt of bid. If the e-auction is in the auto extension mode, e-auction will be closed only when there is no bid during the last 5 minutes.
