Click on OK and select your DSC in the signer form for authentication. When you are logging into the system for the first time, system shall verify the name of the person to whom the DSC has been issued and the name of the contact person provided during registration, for the user id being used for logging in. If the two names match, system will map the user id with the DSC without any prompt. If the two names don't match, system will give an alert stating that the two names are different and will ask you to confirm that the DSC being used is the correct DSC for the user id and ask for synchronization. If you proceed with the DSC, system will automatically synchronize the contact person's name to match with name of the person holding the DSC and will map the DSC with the user id for future use. For all subsequent logins, system will check if the correct pair of user id and DSC are being used or not and will allow login only if the correct pair of DSC and user id are used. Else, system will prevent you from logging into the system.

NOTE:- For the DSC to appear in the signer form, the token must be plugged in, proper DSC driver installed and the "ENABLE PROTECTED MODE" disabled as shown in the settings

Wait for the JAVA application to be downloaded on your computer and Run the application by clicking on the Run button. If there is any problem in the Running of JAVA application, check for the JRE version installed in the computer and upgrade the same if necessary.

In some cases the website might prompt for an “Add On” to run, which should be allowed.

To bid in an e-tender, click on the “Commercial Specifications”, “Techno- Commercial” and “price” links under Cover 1 and Cover 2 respectively and save them for entering your Bid against the desired lot.

In some cases the website might prompt for an “Add On” to run, which should be allowed.

To bid in an e-tender, click on the “Techno- Commercial” and “price” links under Cover 1 and Cover 2 respectively and save them for entering your Bid against the desired lot.

The screenshot shows a Java application interface. On the left, a 'Java Console' window is open, displaying a list of commands and their descriptions:

- f: finalize objects on finalization queue
- g: garbage collect
- h: display this help message
- l: dump classloader list
- m: print memory usage
- o: trigger logging
- q: hide console
- r: reload policy configuration
- s: dump system and deployment properties
- t: dump thread list
- v: dump thread stack
- x: clear classloader cache
- 0-9: set trace level to <n>

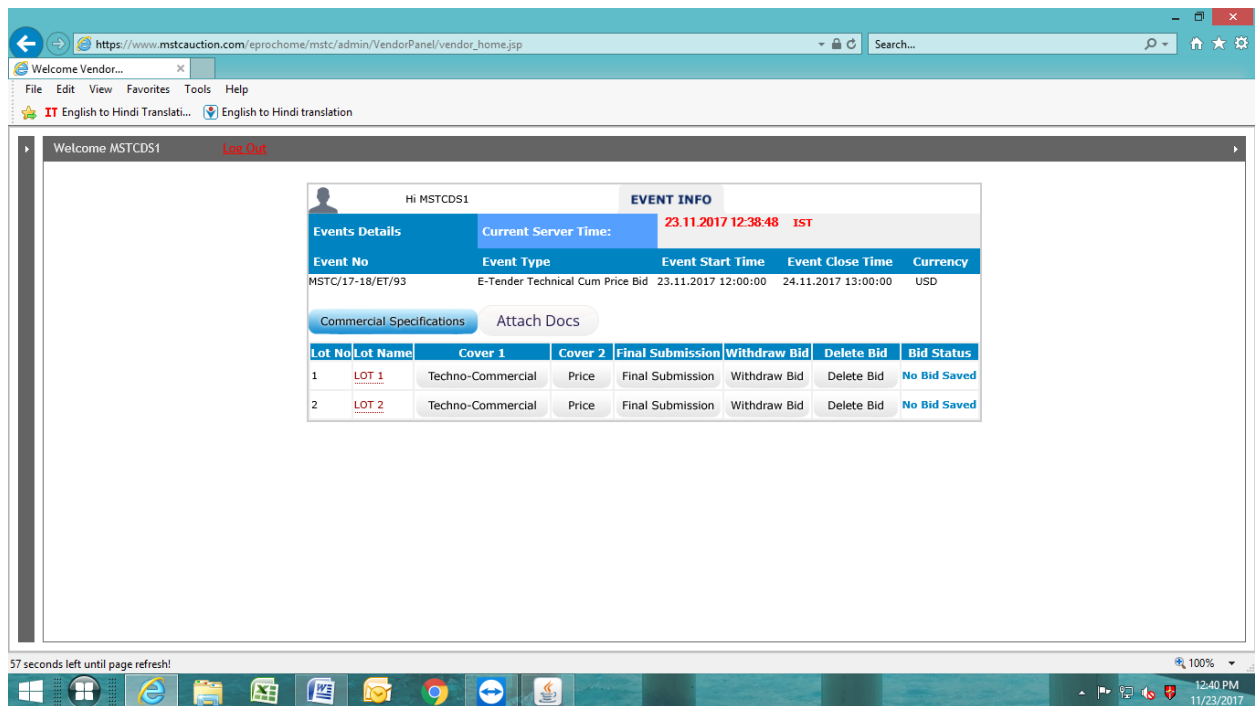

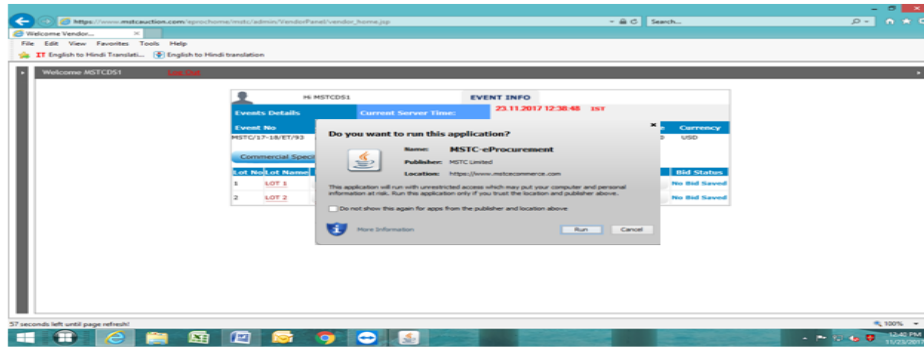

Below the list, the console shows the output: 'Enapple Encryption Applet Initialized' and 'Enapple Encryption Applet Started'. At the bottom of the console are 'Clear', 'Copy', and 'Close' buttons.

The main window is a web browser displaying an e-tender page. The page title is 'MSTCDS1' and the page content includes an 'EVENT INFO' section. The 'Current Server Time' is '23.11.2017 12:39:5 IST'. Below this is a table with the following data:

Event Type	Event Start Time	Event Close Time	Currency
E-Tender Technical Cum Price Bid	23.11.2017 12:00:00	24.11.2017 13:00:00	USD

Below the event info is a table with columns for 'Cover 1', 'Cover 2', 'Final Submission', 'Withdraw Bid', 'Delete Bid', and 'Bid Status'. The table has two rows, one for 'LOT 1' and one for 'LOT 2'. Both rows show 'Techno-Commercial' for Cover 1, 'Price' for Cover 2, and 'Final Submission', 'Withdraw Bid', and 'Delete Bid' for the other columns. The 'Bid Status' for both rows is 'No Bid Saved'.

At the bottom of the browser window, there is a status bar that says '40 seconds left until page refresh!' and a taskbar with various application icons. The system tray shows the time '12:40 PM' and the date '11/23/2017'.

The screenshot shows a web browser window with the URL https://www.mstcauction.com/eprochrome/mstc/admin/VendorPanel/vendor_home.jsp. The page displays a user interface for a vendor, including a 'Welcome Vendor...' message and a 'Log Out' link. The main content area is titled 'EVENT INFO' and shows the following details:

- Hi MSTCDS1
- Current Server Time: 23.11.2017 12:46:0 IST
- Event No: MSTC/17-18/ET/93
- Event Type: E-Tender Technical Cum Price Bid
- Event Start Time: 23.11.2017 12:00:00
- Event Close Time: 24.11.2017 13:00:00
- Currency: USD

Below the event details, there are buttons for 'Commercial Specifications' and 'Attach Docs'. A message states 'Price Bid Successfully Accepted For Lot No. 1'. A table below shows the bid details for Lot No. 1:

Lot No	Lot Name	Cover 1	Cover 2	Final Submission	Withdraw Bid	Delete Bid	Bid Status
1	LOT 1	Techno-Commercial	Price	Final Submission	Withdraw Bid	Delete Bid	Price Saved
2	LOT 2	Techno-Commercial	Price	Final Submission	Withdraw Bid	Delete Bid	No Bid Saved

The 'Final Submission' link for Lot No. 1 is highlighted with a red box. The browser's taskbar at the bottom shows the system time as 12:47 PM on 11/23/2017.

Uploading Documents

Please select the 'Attach Docs' link to upload documents. Multiple documents can be uploaded.

Once a bidder selects 'I have no documents to attach' and click on 'submit' the "Attach Docs" link gets disabled for that event. This option may be exercised in case the bidder does not wish to attach any supporting documents.

In case a bidder selects 'I have no documents to attach' by mistake, it may use the 'Delete no Doc' link to enable the 'Attach Doc' button and upload the documents

Bidders are required to take special note of the following points.

- (a) A bid can be edited any number of times and documents can be uploaded before the final submission of bid (i.e before clicking on Sign & Encrypt). Once the bid has been submitted by clicking on Final Submission with its DSC, no further editing of bid or uploading of documents is possible.**
- (b) A bid can be submitted up to the scheduled closing time of the event. After the closing time of event has passed, no bid will be accepted by the system. Hence, bidders are advised to make final submission of their bids well in advance.**
- (c) A bid can be withdrawn or deleted with its DSC prior to the closing time of the event. However in case of withdrawal of bid, no fresh bid can be submitted. On the other hand if a bidder wishes to edit its bid after final submission he may do so by clicking the “Delete Bid” button with its DSC and re-submit his bid**
