## 2 Introduction

### 2.1 Background

2.1.1 The Cabinet Committee on Economic Affairs, in its meeting held on February 3, 2016, decided that the allocation of coal linkages/ letter of assurances for the non-regulated sector shall henceforth be done through an auction based mechanism.

2.1.2 Subsequently, the MoC issued a letter to CIL and SCCL vide letter no. 23011/51/2015-CPD(Pt-I) dated February 15, 2016 (the "**Policy**"), for auction of coal-linkages for the non-regulated sector, where sub-sectors could be cement, sponge iron/ steel, aluminium and others (excluding fertilizer (urea) sector) including their captive power plants, through a competitive bidding process. According to the Policy, the auctions are to be conducted by CIL/ SCCL and CIL has been entrusted with the task of working out the detailed procedure/ methodology for conducting the auction process. CIL/ SCCL have also been instructed to take immediate necessary action for conducting the auctions.

2.1.3 Accordingly, SCCL has *inter alia* decided to auction coal linkages for an annual contracted quantity of approximately 6.33 MTPA for the various sub-sectors within the non-regulated sector except fertilizer (urea) ("**Tranche I Coal Linkage Auction**").

2.1.4 This Scheme Document is being issued by SCCL for auction of coal linkages with respect to the "Others" sub-sector for a total quantity of approximately 0.99 MTPA ("**Phase IV Auction**").

### 2.2 The Policy

Bidders are encouraged to familiarise themselves with the Policy. As of the date of this Scheme Document, the Policy is available at http://coal.nic.in/sites/upload_files/coal/files/curentnotices/150216.pdf.

### 2.3 The Coal Linkages

The coal linkages from each Lot identified in ***Annexure VI*** ("**Coal Linkages**") are being auctioned strictly for consumption by the Specified End Use Plant ("**Specified End Use**").

## 3 Auction Process

### 3.1 Electronic Auction

3.1.1 The auction of the Coal Linkages shall be conducted on the electronic platform created by the Service Provider ("**Electronic Platform**") and no physical Bids shall be accepted or considered. The interested bidders are required to seek registration on the Electronic Platform for bidding purposes against payment of a non-refundable registration fee of Rs. 10,000 (Indian Rupees Ten Thousand) plus applicable taxes.

3.1.2 The technical details and other information with respect to access to the Electronic Platform and bidding thereon are provided in ***Annexure V***.

3.1.3 In case of any technical clarification regarding access to the Electronic Platform or conduct of the auction process, the Bidders may contact the Service Provider directly at the contact details provided in ***Annexure V***.

### 3.2 Scheme Document

The Bidders shall be eligible to download the Scheme Document from website of the Service Provider free of cost.

### 3.3 Normative Coal Requirement

3.3.1 The Normative Coal Requirement for each Specified End Use Plant shall be calculated by the Electronic Platform in accordance with the following formula:

[Coal Requirement] minus [(annual coal requirement of the Specified End Use Plant met through any existing coal linkage(s), which shall be calculated on the basis of the annual contracted quantity under the existing linkage(s) wherein such annual contracted quantity shall be deemed to be of G10 grade of coal, irrespective of actual contracted grade) plus (annual coal requirement of the Specified End Use Plant met through any captive coal mine(s), which shall be computed on the basis of G10 grade of coal, irrespective of the grade of coal actually available from the captive coal mine(s)) plus (annual coal requirement of the Specified End Use Plant met through any allocation of coal linkage(s) pursuant to auction process of any lot conducted by SCCL under this Scheme Document and/ or by CIL, which shall be computed on the basis of G10 grade of coal, irrespective of the grade of coal actually allocated pursuant to the auction process under this Scheme)].

It is clarified that in case the actual grade of coal available from the captive coal mine (as specified above) is not of G10 grade, then the G10 equivalent quantity shall be computed as follows:

$$\text{G10 equivalent quantity} = \frac{\text{(Annual coal requirement met from the captive coal mine) } \textit{multiplied by} \text{ (average GCV of the relevant grade of coal)}}{\text{Average GCV of the G10 grade of coal}}$$

Further, in case the actual grade of coal available from any allocation of coal linkage(s) pursuant to auction process of the relevant lot conducted by SCCL under this Scheme Document and/ or by CIL (as specified above) is not of G10 grade, then the G10 equivalent quantity shall be computed as follows:

$$\text{G10 equivalent quantity} = \frac{\text{(Annual coal requirement met from the allocation of coal linkage(s) pursuant to auction process of the relevant lot conducted by SCCL under this Scheme Document and/ or by CIL) } \textit{multiplied by} \text{ (average GCV of the relevant grade of coal)}}{\text{Average GCV of the G10 grade of coal}}$$

3.3.2 The Bidders shall be required to specify the Coal Requirement and other details as referred to in Clause 3.3.1 on the Electronic Platform and submit the documents and information specified in Clause 3.4(a) in support thereof. The Electronic Platform shall generate the Normative Coal Requirement for various grades of coal (as per the formula set out in Clause 3.3.1) with respect to a Specified End Use Plant only upon receipt of all such information and documentation from the Bidder. The Normative Coal Requirement shall be subject to reduction on a progressive basis depending on the allocations made to the Bidder during the process of auction and the Bidder shall be informed about the same on the Electronic Platform. The data with respect to the existing coal linkages as well as captive coal mines allocated (together with proportionate allocation of the peak rated capacity of such captive coal mines, in case the same has been allocated for a combination of Specified End Use Plants) shall have to be reported by the Bidders themselves on the Electronic Platform and the Bidders will be responsible for any misrepresentation in this regard. The Bidders shall, based on the information provided by them on the Electronic Platform pertaining to their Normative Coal Requirement, decide the Link Quantity across various Lots for the purposes of computing the Bid Security and Process Fee payable by them.

It may be noted that the Coal Requirement reported on the Electronic Platform shall not in any case exceed the value declared in the Affidavit as per Annexure IV.

3.3.3 An illustrative example where the Bid is being submitted for a G8 grade of coal is provided as under:

**Illustration 1:** The Coal Requirement submitted by the Bidder on the Electronic Platform is 42,697 TPA of G10 equivalent grade of coal with an existing linkage of 2,000 TPA. Also, a mine X with peak rated capacity of 48,000 TPA of G9 grade of coal has been allocated for captive consumption to the Unit A and Unit B whose annual coal requirement is in the ratio of 1:5. For the purpose of assessment of Normative Coal Requirement of Unit A, it would be considered that the requirement of Unit A and Unit B has been met to the extent of 8,000 TPA and 40,000 TPA respectively i.e. 48,000 TPA allocated in the ratio of 1:5. The Normative Coal Requirement of the Specified End Use Plant for G8 grade of coal shall be assessed as follows:

| Particulars | Unit | | |
|---|---|---|---|
| Coal Requirement of Specified End Use Plant | TPA | (A) | 42,697 |
| Existing Linkage Quantity | TPA | (B) | 2,000 |
| Deemed Grade of Coal Allocated through Linkage | | | G10 |
| Quantity of Coal allocated for the Specified End Use Plant from the Mine | TPA | (C) | 8,000 |

| Particulars | Unit | | |
|---|---|---|---|
| Grade of Coal from Mine | | | G9 |
| Average GCV of G9 grade of coal | kcal/kg | (D) | 4,750 |
| Average GCV of G10 grade of coal | kcal/kg | (E) | 4,450 |

| Normative Coal Requirement of Specified End Use Plant not being met pursuant to an existing linkage or mine or allocation of coal linkage pursuant to an auction process under this Scheme and/ or by SCCL | Kcal | (G = A – B – F) | 32,158 |
| Average GCV of G8 grade of coal | kcal/kg | (H) | 5,050 |
| **Normative Coal Requirement (based on G8 grade)** | TPA | (I = G x E/ H) | 28,337 |

**Illustration 2:** Further in addition to the illustration provided above, if the above Bidder is successful in the Lot of G8 grade of coal for a quantity of 12,000 TPA, the Normative Coal Requirement for a subsequent Lot with G9 grade coal would be assessed as under:

| Particulars | Unit | | |
|---|---|---|---|
| **Normative Coal Requirement (based on G8 grade)** | **TPA** | **(A)** | 28,337 |
| Allocated Quantity in Lot with G8 grade | TPA | (B) | 12,000 |
| Available Normative Coal Requirement (based on G8 grade) | TPA | (C=A-B) | 16,337 |

**Illustration 3:** The Specified End Use Plant (Unit 1) of the Bidder a Coal Requirement of xxx TPA at G10 Grade. The Bidder has an existing FSA of 58,800 TPA covering both Unit 1, and a second unit having a Coal Requirement of xxx TPA at G10 Grade, namely Unit 2. The Normative Coal Requirement of the Specified End Use Plant, namely Unit 1 shall be assessed as follows:

| Particulars | Unit | | |
|---|---|---|---|
| Existing Total Linkage Quantity for Unit 1 and Unit 2 combined | TPA | (A) | 58,800 |
| Deemed Grade of Coal Allocated through Linkage | | | G10 |
| Average GCV of G10 grade of coal | kcal/kg | (B) | 4,450 |
| Coal Requirement of the Specified End Use Plant (Unit 1) at G10 Grade | TPA | (C) | 37,478 |
| Coal Requirement of Unit 2 at G10 Grade | TPA | (D) | 50,586 |
| Coal Requirement of the Specified End Use Plant (Unit 1) met through existing operational FSA at G10 Grade | TPA | (E) = A*C/(C+D) | 25,024 |

| **Normative Coal Requirement based on G8 grade** | **TPA** | **(H)=F*B/G** | 10,975 |

3.3.4 It is clarified that:

(a) in case a coal mine has been allocated for captive consumption of coal in a Specified End Use Plant, then the Normative Coal Requirement shall be net of grade adjusted coal requirement on the basis of the peak rated capacity of such captive coal mine; and

(b) where a mine has been allocated for multiple plants, then, the Normative Coal Requirement of the Specified End Use Plant shall be calculated after proportionately factoring the coal consumption from the said mine.

3.4 **Conditions to Auction**

Subject to satisfaction of the following conditions, the Bidders shall be entitled to submit their Bid through a non-discriminatory ascending clock auction procedure set out in Clause 3.5:

(a) the Bidders shall satisfy all the Eligibility Conditions and shall submit all documents in support thereof as specified in Clause 4(c) and shall submit the relevant information required under ***Annexure V***. The documents specified in Clause 4(c) shall be submitted in original in a sealed cover within the Due Date to SCCL at the address specified in ***Annexure V***. The sealed cover should clearly bear the following identification: "Original Documents for Auction of Coal Linkage in the "Others" Sub-sector – Phase IV of Tranche I Auction" and shall indicate the name, registration no. provided by the Service Provider and address of the Bidder; and

(b) the Bidder shall submit the Process Fee in accordance with Clause 3.12 and the Bid Security in accordance with Clause 6.

3.5 **Non-Discriminatory Ascending Clock Auction Process**

3.5.1 The Coal Linkages shall be auctioned Lot wise as per the sequence and schedule set out in ***Annexure VI***. In case the auction of Coal Linkages from any Lot spills over to the time of the next Lot(s), then the auction of such Lot(s) will be deferred and will be conducted at the end of auction of the Coal Linkages from the last Lot as per the auction sequence specified in ***Annexure VI***. For example: There are 15 Lots (numbered L1 to L15) for a sub-sector with a proposed auction sequence of 3 Lots per day at 11:00 HRS, 14:00 HRS and 17:00 HRS respectively. In case the auction of the Coal Linkages from Lot 1 continues till 18:00 HRS on Day 1, auction of Coal Linkages from Lot 2 and Lot 3 will be deferred and will be conducted after the auction of the Coal Linkages from Lot 15.

3.5.2 The Coal Linkages shall be auctioned through a non-discriminatory ascending clock auction procedure in the following manner:

(a) The auction process for the Coal Linkages will be conducted in multiple rounds.

(b) The floor price for the auction in the first round of the auction process shall be the Notified Price ("**Reserve Price**") and the Bidders shall Bid for a particular Link Quantity in accordance with the provisions hereunder.

(c) In round 1 of the auction, the premium shall be Rs. zero/tonne against which the Bidders

will be required to indicate their Link Quantity.

(d) At the end of each round of the Bidding with respect to a Coal Linkage, the demand/ supply ratio will be assessed by the Electronic Platform and the premium for the next round of auction will be determined based on the demand/ supply ratio of the immediately preceding round in the manner specified below, and in each round of the auction, the Bidders may offer to purchase the Link Quantity against the Reserve Price plus premium for such round:

(i) if demand/ supply ratio at the end of a particular round is greater than 100% (one hundred per cent.) and less than or equal to 125% (one hundred and twenty five per cent.), then the premium will be Rs. 10 (Indian Rupees Ten) per tonne plus the premium of the previous round;

(ii) if demand/ supply ratio at the end of a particular round is greater than 125% (one hundred and twenty five per cent.) and less than or equal to 200% (two hundred per cent.), then the premium will be Rs. 25 (Indian Rupees Twenty Five) per tonne plus the premium of the previous round;

(iii) if demand/ supply ratio at the end of a particular round is greater than 200% (two hundred per cent.) and less than or equal to 300% (three hundred per cent.), then the premium will be Rs. 50 (Indian Rupees Fifty) per tonne plus the premium of the previous round; and

(iv) if demand/ supply ratio at the end of a particular round is greater than 300% (three hundred per cent.) then the premium will be Rs. 100 (Indian Rupees One Hundred) per tonne plus the premium of the previous round.

(e) Each Bid submitted by a Bidder during any of the auction rounds shall be considered a valid and binding offer to purchase the Link Quantity at the Reserve Price plus premium applicable for the relevant round.

(f) The auction process shall stop when the demand/ supply ratio is less than or equal to 100% (one hundred per cent.) in a particular round. The round at which the auction stops ("**Last Round**") and the penultimate round of the auction ("**Penultimate Round**") will be compared and the quantity of coal to be allocated to each Bidder in each of the said rounds shall be computed as follows:

(i) if the demand/ supply ratio in any of the above mentioned rounds is less than or equal to 100% (one hundred per cent.), each Bidder would be entitled to be allocated their full Link Quantity in that round; or

(ii) if the demand/ supply ratio in any of the above mentioned rounds is more than 100% (one hundred per cent.), then each Bidder would be entitled to be allocated their pro rata share of the Link Quantity in that round.

SCCL shall, compute the actual coal entitlement of each Bidder for the Last Round and the Penultimate Round, and shall thereafter compare the expected revenue from the Last Round and the Penultimate Round. The round generating the maximum revenue for SCCL pursuant to the above computations will be selected as the round for determination of the

Successful Bidder(s) ("**Selected Round**").

(g) Each Bidder who has submitted Bids in the Selected Round shall hereinafter be referred to as a "**Successful Bidder**" and the quantity of coal to which the Successful Bidder would be entitled to in the Selected Round (as computed under Clause 3.5.2(f)(i) shall be referred to as the "**Provisional Allocated Quantity**".

***An illustrative example is provided below for a Lot Size of 0.2 MTPA***

| Round | Demand/ Supply Ratio | Round Premium (Rs./Tonne) | |
|---|---|---|---|
| | | Step up in Round Premium | Total Round Premium |
| 1 | 324.00% | - | - |
| 2 | 274.00% | 100.00 | 100.00 |
| 3 | 204.00% | 50.00 | 150.00 |
| 4 | 174.00% | 50.00 | 200.00 |
| 5 | 150.00% | 25.00 | 225.00 |
| 6 | 130.00% | 25.00 | 250.00 |
| 7 | 126.00% | 25.00 | 275.00 |
| 8 | 124.00% | 25.00 | 300.00 |
| 9 | 122.00% | 10.00 | 310.00 |
| 10 | 120.00% | 10.00 | 320.00 |
| 11 | 106.00% | 10.00 | 330.00 |
| 12 | 102.00% | 10.00 | 340.00 |
| 13 | 102.00% | 10.00 | 350.00 |
| 14 | 98.00% | 10.00 | 360.00 |

Thus, the auction will stop at round 14 where the demand/supply ratio falls below 100% (one hundred per cent.). At this stage, SCCL will compare the expected revenue from round 14 (i.e. the Last Round) and round 13 (i.e. the Penultimate Round). The round generating the maximum revenue will be selected. For calculating the revenue generated from the aforesaid rounds where demand supply ratio is greater than 100% (i.e. round 13 in this example), the Provisional Allocated Quantity will be considered on a pro-rata basis. For calculating the revenue generated from the aforesaid rounds where demand supply ratio is less than or equal to 100% (round 14 in this example), the Provisional Allocated Quantity will be equal to the Link Quantity. An illustrative example is set out below:

| **Allocation and revenue Calculations for Round 13** | | | |
|---|---|---|---|
| **Description** | **Bidder 1** | **Bidder 2** | **Bidder 3** |
| Link Quantity (TPA) | 32,000 | 62,000 | 1,10,000 |
| Provisional Allocated Quantity (TPA) on a pro-rata basis | 31,373 | 60,784 | 1,07,843 |
| **Total Quantity Available for Sale** | | | **2,00,000 TPA** |
| Reserve Price (assuming G8 grade) | | | Rs. 1,700 per tonne |
| Applicable Round Premium | | | Rs. 350 per tonne |
| Total Applicable Price | | | Rs. 2,050 per tonne |
| **Total Revenue** | | | **Rs. 41.00 Crore** |

| Allocation and revenue Calculations for Round 14 | | | |
|---|---|---|---|
| **Description** | **Bidder 1** | **Bidder 2** | **Bidder 3** |
| Link Quantity (TPA) | 30,000 | 60,000 | 1,06,000 |
| **Provisional Allocated Quantity (TPA)** | 30,000 | 60,000 | 1,06,000 |
| **Total Quantity Available for Sale** | | | **1,96,000 TPA** |
| Reserve Price (assuming G8 grade) | | | Rs. 1,700 per tonne |
| Applicable Round Premium | | | Rs. 360 per tonne |
| Total Applicable Price | | | Rs. 2,060 per tonne |
| **Total Revenue** | | | **Rs. 40.38 Crore** |

Since revenue under round 13 is more than under round 14, SCCL may choose this Round and provisionally allocate each Bidder their pro-rata share with a premium of Rs. 350 per tonne.

(h) In case demand/ supply ratio is 100% (one hundred per cent.) or less in round 1 of the auction, each Bidder shall be provisionally allocated their Link Quantity for that round at the Reserve Price.

(i) The Bidders will have to abide by the following conditions in each round of the auction:

(i) for road mode of dispatch, the Link Quantity shall be equal or greater than 100 TPA and shall neither exceed the Normative Coal Requirement nor the quantity offered in a particular Lot. For rail mode of dispatch, the Link Quantity shall be equal or greater than 4,000 TPA and shall neither exceed the Normative Coal Requirement nor the quantity offered in a particular Lot;

(ii) the Link Quantity will be integer multiple of 100 TPA (hereinafter referred to as the "**Transport Factor**"); and

(iii) the Link Quantity in a particular round shall be lower than or equal to the Link Quantity quoted in the previous round.

(j) Within 180 (one hundred and eighty) days of completion of the Phase IV Auction ("**Verification Period**"), the Successful Bidder shall get the Coal Requirement verified by a commission / authority/ department/ agency / entity listed in ***Annexure VII*** ("**Verification Agency**"). In case the Successful Bidder fails to get the Coal Requirement verified by the Verification Agency within the Verification Period, then the supplies of coal under the E-FSA shall automatically be suspended at the end of the Verification Period. Further, in case the Successful Bidder fails to get the Coal Requirement verified by the Verification Agency within 365 days of completion of the Phase IV Auction, the E-FSA shall stand terminated and the Performance Security submitted by the Successful Bidder shall be invoked. The Verification Agency, after completing the verification of the Coal Requirement of the Successful Bidder shall issue a certificate in the format as set out in ***Annexure VIII*** ("**Verification Certificate**"). The Bidder may submit the Verification Certificate in a format different than specified in Annexure VIII, as long as the following information is provided:

(i) Name of Bidder
(ii) Details of Specified End Use Plant

(iii) Annual Coal Requirement in terms of Grade and Quantity of coal; or Annual Energy Requirement at 85% capacity utilisation

In case the Coal Requirement verified by the Verification Agency is more than the Coal Requirement specified by the Successful Bidder, then the Provisional Allocated Quantity, post the Adjustment, will be regarded as the Allocated Quantity.

In case the Coal Requirement verified by the Verification Agency is less than the Coal Requirement specified by the Successful Bidder, then the Provisional Allocated Quantities of the Successful Bidder will be subject to adjustment in accordance with the following process:

(i) the difference between the Coal Requirement specified by the Successful Bidder and the Coal Requirement verified by the Verification Agency ("**Deficit**") shall be reduced from the Normative Coal Requirement computed pursuant to Clause 3.3.1 and such reduced Normative Coal Requirement shall be referred to as the "**Revised Normative Coal Requirement**";

(ii) the Provisional Allocated Quantity across various Lots shall thereafter be reduced by the Deficit Percentage and the Successful Bidder shall be entitled to the revised quantity so computed. For the purposes hereof the term "**Deficit Percentage**" shall mean:

[(Deficit) *divided by* (Normative Coal Requirement)] *multiplied by* 100;

(iii) in the event that the entitlement of a Successful Bidder pursuant to sub-Clause (ii) above, is not an integer multiple of the Transport Factor, such entitlement shall be decreased and rounded off (downwards) to the nearest integer multiple of the Transport Factor (such downward adjustment in the coal entitlement may hereinafter referred to as the "**Adjustment**") and the quantity post Adjustment shall be the "**Allocated Quantity**" for that Lot.

***An illustrative example is provided as under:***

| **Coal Requirement at G10 grade (CR1)** | 1,20,000 |
| **Existing FSA, deemed at G10 grade (EF)** | 20,000 |
| **Normative Coal Requirement (A) = CR - EF** | 1,00,000 |
| **Revised Coal Requirement at G10 grade (CR2) [Post Verification]** | 1,02,000 |
| **Revised Normative Coal Requirement (B) = CR2 - EF** | 82,000 |
| **Deficit (A-B)** | 18,000 |

| | | | | |
|---|---|---|---|---|
| Lot 3 | 18,000 | 3,240 | 14,760 | 14,700 |
| **Total** | **65,000** | **11,700** | **53,300** | **53,200** |

(k) **(Not Used)**

(l) **(Not Used)**

(m) It is clarified that each Successful Bidder shall be entitled to receive only the Allocated Quantity and that the Allocated Quantity shall be used by the Successful Bidder only for consumption by the Specified End Use Plant. In the event that the actual loaded quantity of coal is lesser than the Allocated Quantity, such under-loading shall be dealt with in the manner specified in the Agreement.

(n) Notwithstanding anything to the contrary contained herein: (A) in the event that the Revised Normative Coal Requirement verified by the Verification Agency is less than 4,200 TPA, then the Successful Bidder shall not be entitled to receive any coal pursuant to the Scheme; and the Agreement entered into by the Successful Bidders with SCCL shall stand terminated.

(o) In the event that any coal remains unallocated pursuant to completion of the Phase IV Auction, SCCL reserves the right to dispose of such coal in the subsequent tranche of auction for the non-regulated sector conducted by SCCL.

3.6 **Issuance of Letter of Intent**

SCCL shall, within 15 (fifteen) days of completion of the Phase IV Auction, issue a letter of intent in the format set out in ***Annexure X*** ("**LOI**") to each of the Successful Bidders in respect of *inter alia* the cumulative Provisional Allocated Quantity of such Successful Bidder from SCCL. The terms of this Scheme Document shall be deemed to be incorporated in the LOI by reference and to form a part of the LOI and SCCL shall be entitled to exercise all its rights and remedies as stipulated in this Scheme Document.

3.7 **Execution of the Agreement**

The Successful Bidder shall, within 45 (forty five) days of issuance of the LOI to it, submit the Performance Security to SCCL. The Agreement shall be executed between the Successful Bidder and SCCL in respect of the Allocated Quantity (from a particular Lot) from SCCL within 30 (thirty) days of:

(a) receipt of the Performance Security; and

(b) submission of the documents specified in ***Part A of Annexure XI*** to SCCL together with any other documents as may be requested by SCCL from amongst the documents specified in ***Part B of Annexure XI***.

The Successful Bidder shall not be entitled to seek any deviation, modification or amendment in the Agreement, except with the prior written approval of SCCL. The terms of this Scheme Document shall be deemed to be incorporated in the Agreement by reference and to form a part of the Agreement and SCCL shall be entitled to exercise all its rights and remedies as stipulated in this

Scheme Document. In the event of any inconsistency or difference in the provisions of the Scheme Document and those of the Agreement, the provisions of the Agreement shall prevail. It is clarified that the Successful Bidders will be allowed to off-take the Allocated Quantity only through the mode specified for a particular Lot and would not be given the flexibility to switch the mode specified for a particular Lot.

3.8 **Tests of Responsiveness**

SCCL may at any time prior to issuance of the LOI and SCCL may at any time post issuance of the LOI, determine whether the documents, information and/ or payments in relation to the Conditions to Auction or the Bids have been submitted or received from the Bidder in accordance with the requirements of this Scheme Document. SCCL reserves the right to disqualify any Bidder, cancel the LOI, terminate the Agreement and forfeit the Bid Security, Process Fee and/ or Performance Security, as the case may be, if it is of the opinion that the information/ documents relating to the Coal Requirement, the Conditions to Auction or any other requirements for subsequent submissions have not been duly satisfied and no request for alteration, modification, substitution or withdrawal shall be considered or permitted by SCCL in respect of the documents/ information submitted with respect to the Coal Requirement, Conditions to Auction, subsequent documents or payments with respect to the Bids. While making any determination with respect to responsiveness of any documents, information and/ or payments submitted or received from the Bidder, SCCL may consider such parameters as it may deem relevant including considerations that the same:

(a) are as per the prescribed formats and have been submitted or paid in the manner stipulated in this Scheme Document;

(b) have been submitted by the Due Date including any extension thereof;

(c) contain all the information (complete in all respects) as requested in this Scheme Document;

(d) are not incorrect, false or misleading etc.;

(e) do not contain any conditions or/and qualifications;

(f) have been provided in relation to one Specified End Use Plant; and

(g) are generally not considered to be non-responsive in terms of any other parameters as may be considered relevant by SCCL.

Save and except as provided in this Scheme Document, SCCL shall not entertain any correspondence with any Bidder in relation disqualification of a Bidder in accordance with this Clause 3.8.

3.9 **Pre-Bid Conference**

3.9.1 Pre-Bid conference(s) of the prospective bidders shall be convened at a time and place specified by SCCL. A maximum of 2 (two) representatives of each prospective bidder shall be allowed to participate in the Pre-Bid conference(s) on production of duly issued authority letter from the

prospective bidder and identity documents. During the course of Pre-Bid conference(s), the prospective bidders will be free to seek clarifications and make suggestions for the consideration of SCCL.

Any change in the above mentioned timeline will be communicated through an addendum and/or corrigendum to the Scheme Document.

3.11 **Periodic Payments by the Successful Bidder**

3.11.1 In addition to the payments specified in this Scheme Document, the Successful Bidder shall be required to make periodic payments for the coal supplied under the Agreement on the basis of the following formula:

*{[Annual Contracted Quantity supplied under the Agreement] multiplied by [the sum of the Notified Price (or the latest Indexed Notified Price, as the case may be) and Winning Premium multiplied by (Notified Price (or the latest Indexed Notified Price, as the case may be))]}.*

3.11.2 The Winning Premium (i.e. the relevant percentage of the Notified Price as defined in Clause 1.1.55(b)) shall remain constant during the tenure of the Agreement. The Notified Price or the Indexed Notified Price (as defined) shall be reviewed by SCCL semi-annually, and it may make such modifications as may be deemed appropriate. Change in Control of the Successful Bidder and/ or any transfer of the Specified End Use Plant along with the rights in relation to the Allocated Quantity shall be permissible with prior approval of SCCL if:

The Bidders who satisfies the Conditions to Auction i.e. submits the required information, documents and make payment towards Bid Security and Process Fee, can participate in the non-discriminatory ascending clock auction process. For this, the Bidder shall login to the above mentioned website of MSTC and click on the link "Click for Auctions" followed by "Live Auctions". The Bid Floor shall display inter alia the balance EMD and the maximum quantity of coal that the Bidder can bid for the particular grade of coal. The Bid Floor will also display the start time of e-auction, the number of the auction round, the premium for the auction round, the offered quantity of coal per annum, the grade and other details of offered coal etc. The Bidder shall quote its required quantity of coal per annum (Link Quantity) in the space provided for the

same and click on the BID button. The Bidder shall have to sign the bid that it intends to submit with its registered Digital Signature Certificate (DSC). Each auction round will be of 8 (eight) minutes duration. There will be no time gap between two consecutive auction rounds for the same Lot. The Bidder shall have to submit its Bid within the 8 minutes of any auction round. Bids received at the server before the expiry of the auction round time, as per server time, only will be considered as valid and will be recorded for further action. Therefore, Bidders are advised to submit their Bids well before the expiry of the 8 minutes of the auction round and not wait for the last moment to submit their Bids. SCCL and/ or MSTC shall not be responsible for non-recording of any Bid due to delay in submission of Bid by any Bidder or due to delayed receipt of Bid in the server of MSTC. In case of any complaint or dispute regarding this, the data available at the server of MSTC shall be final and binding on the Bidders.

In round 1 of the auction, the premium shall be Rs. zero/ tonne. Thereafter, the premium of the subsequent auction rounds will be decided depending on the demand registered in the previous auction round (as per Clause 3.5.2 of the Scheme Document). The Bidder may note that it is entitled to submit only one Bid in an auction round. Bid once submitted in an auction round can't be edited/ modified/ amended/ changed/ recalled. Hence, Bidders are advised to exercise extreme caution while bidding so as to avoid making any mistake. Bidders are also advised to protect the secrecy of their login id and password because Bid recorded against any user id or login id will be deemed to have been submitted by the Bidder concerned. No representation/ complaint stating the misuse/ unauthorized usage of login id and password will be entertained at any stage.

Bidders may further note that bidding in subsequent auction rounds is allowed only for such bidders who have quoted a non-zero quantity in the immediately preceding auction round. A Bidder is not allowed to increase its Link Quantity in subsequent auction rounds but can quote the same or less Link Quantity in the subsequent auction rounds. Hence, in their own interest, Bidders may quote their desired maximum quantity (subject to EMD and maximum permissible quantity) in the first auction round itself.

**Digital Signature Certificate**

A Bidder shall be required to possess a valid Digital Signature Certificate (DSC) of signing type to be able to submit its Bid in the electronic auction on MSTC's website. The registered DSC will only be used to digitally sign the Bids that the Bidder will submit online. No Bid will be accepted by the system which is not signed with the registered DSC. Therefore, Bidders are advised to register their DSCs well in advance to avoid any inconvenience

during the bidding process.

It will be the sole responsibility of the Bidder to maintain the secrecy of the password for the Digital Signature Certificate.
