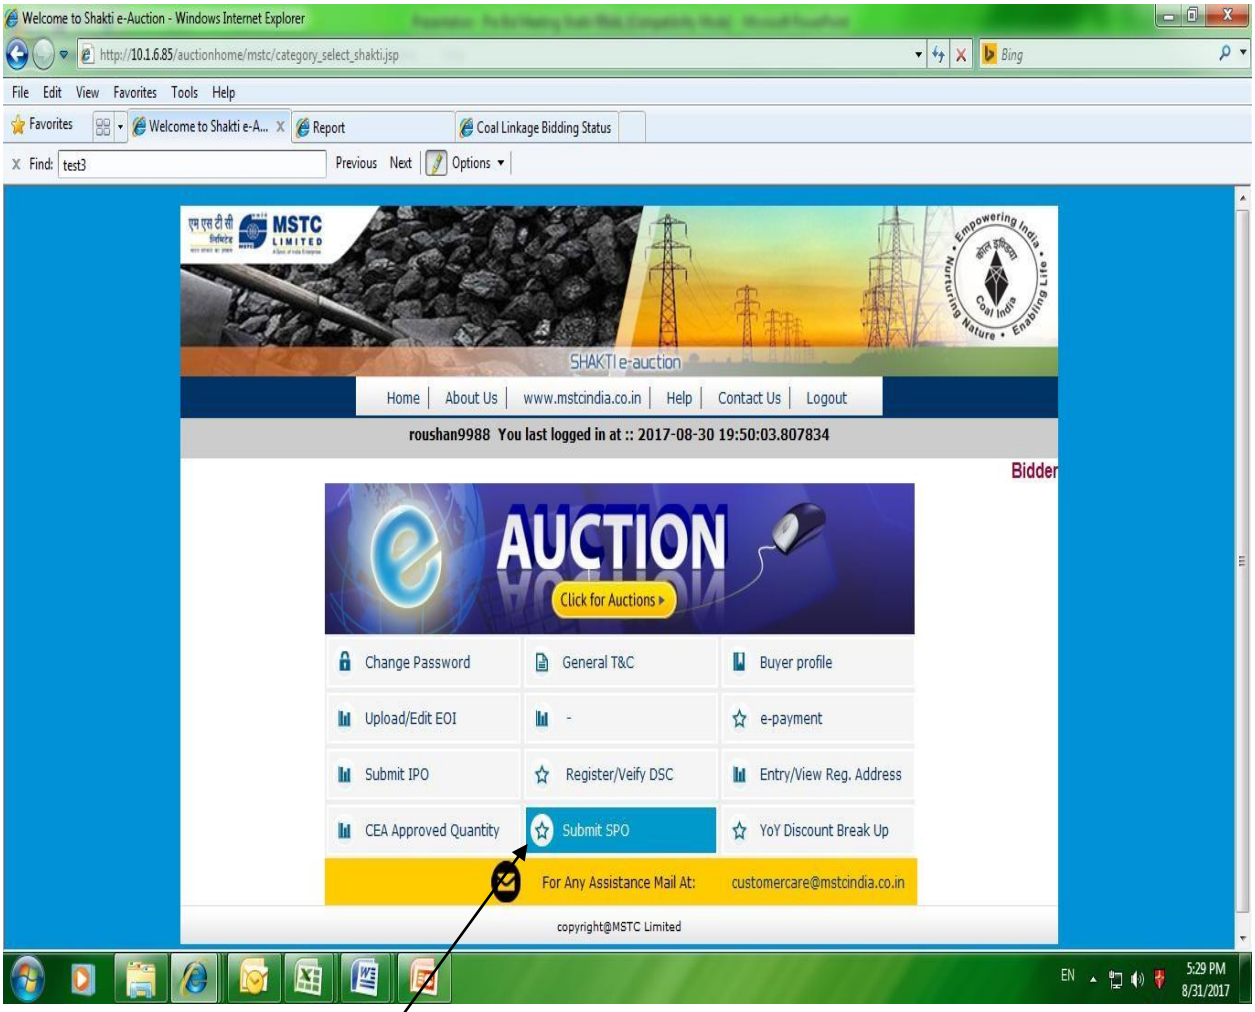
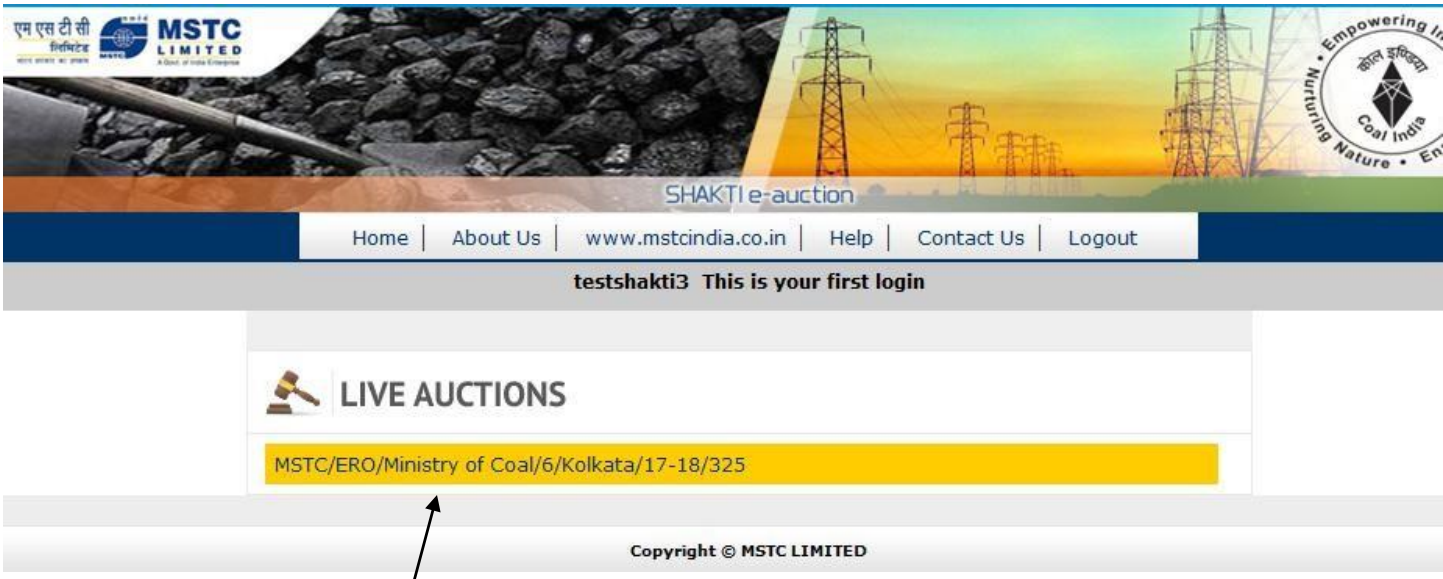
Guide on submission of SPO

To participate in SPO, the successful registered bidder has to login into our web site https://www.mstcecommerce.com/auctionhome/shakti/indexr5.jsp with his userid and password.

After login the home page will open.



Click on the link Submit SPO



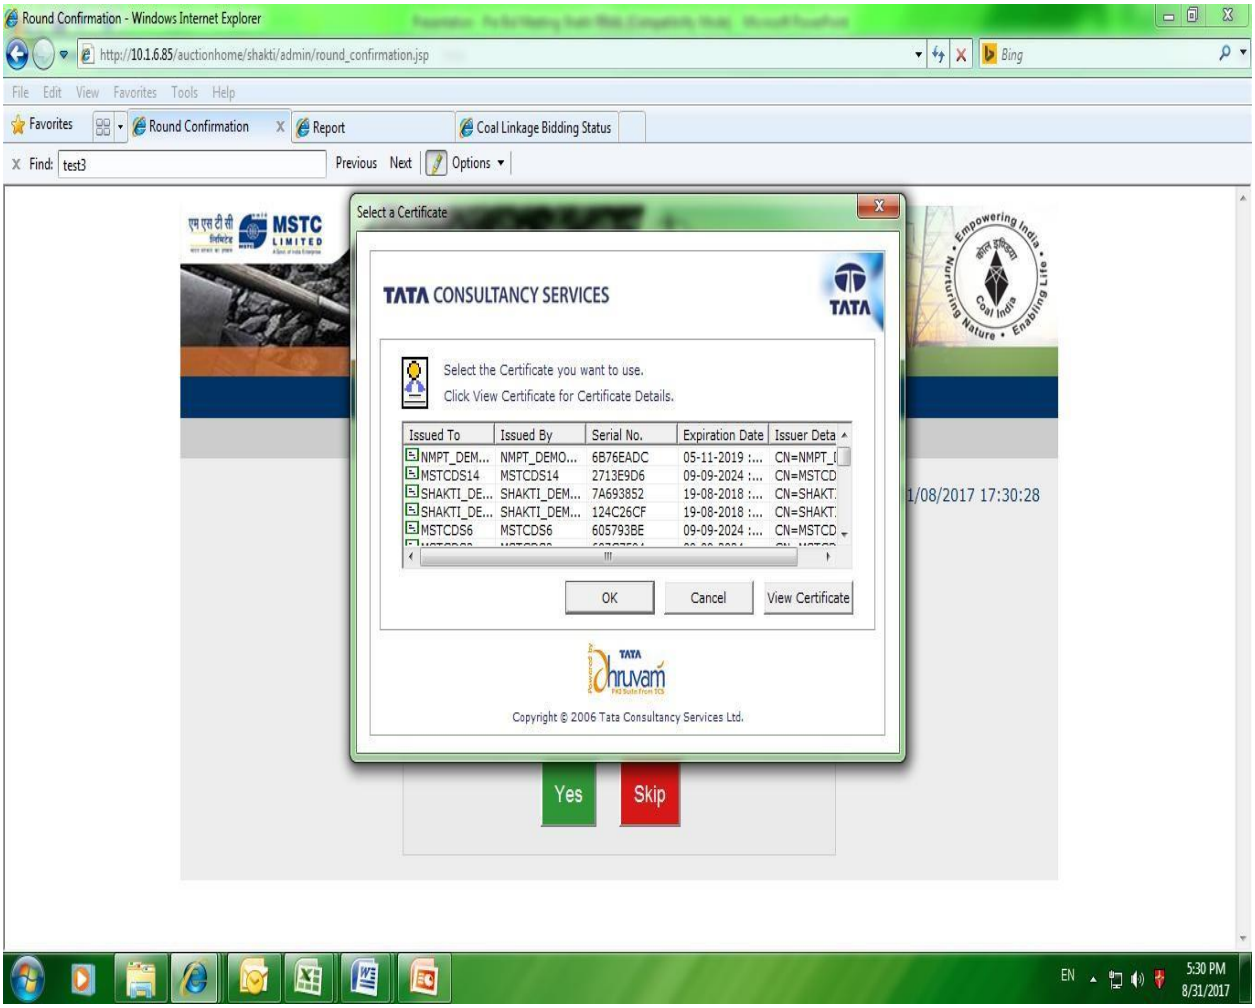
On the next page the SPO link appears. To bid in the SPO a bidder has to click on the SPO number. On clicking the SPO number expression of interest page will open.

The reverse auction shall be conducted in rounds. The number of rounds shall be decided before the start of the auction.

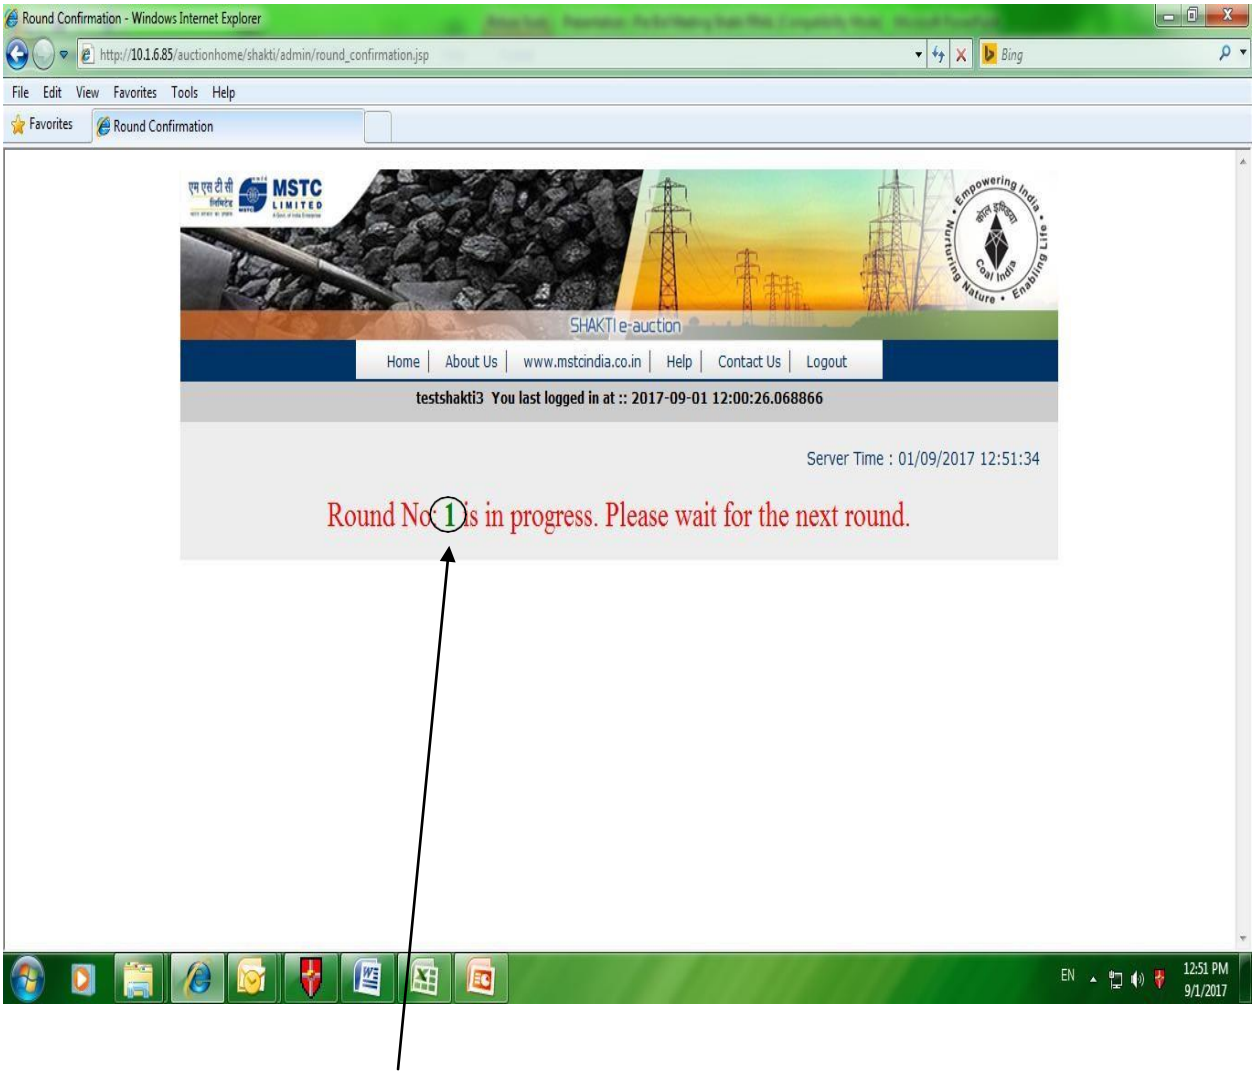
Each round shall have two phases – (a) first five minutes when the bidder will be given the option to express its willingness to bid in the round and (b) the next ten minutes where the bidder shall quote the bid quantity against the source of its choice.

The first phase will have two options “Yes” and “Skip”. In case bidder is not willing to participate in the present round he may simply press the “Skip Button”.

The choice of option (Yes or Skip) needs to be signed by the registered DSC as shown below..

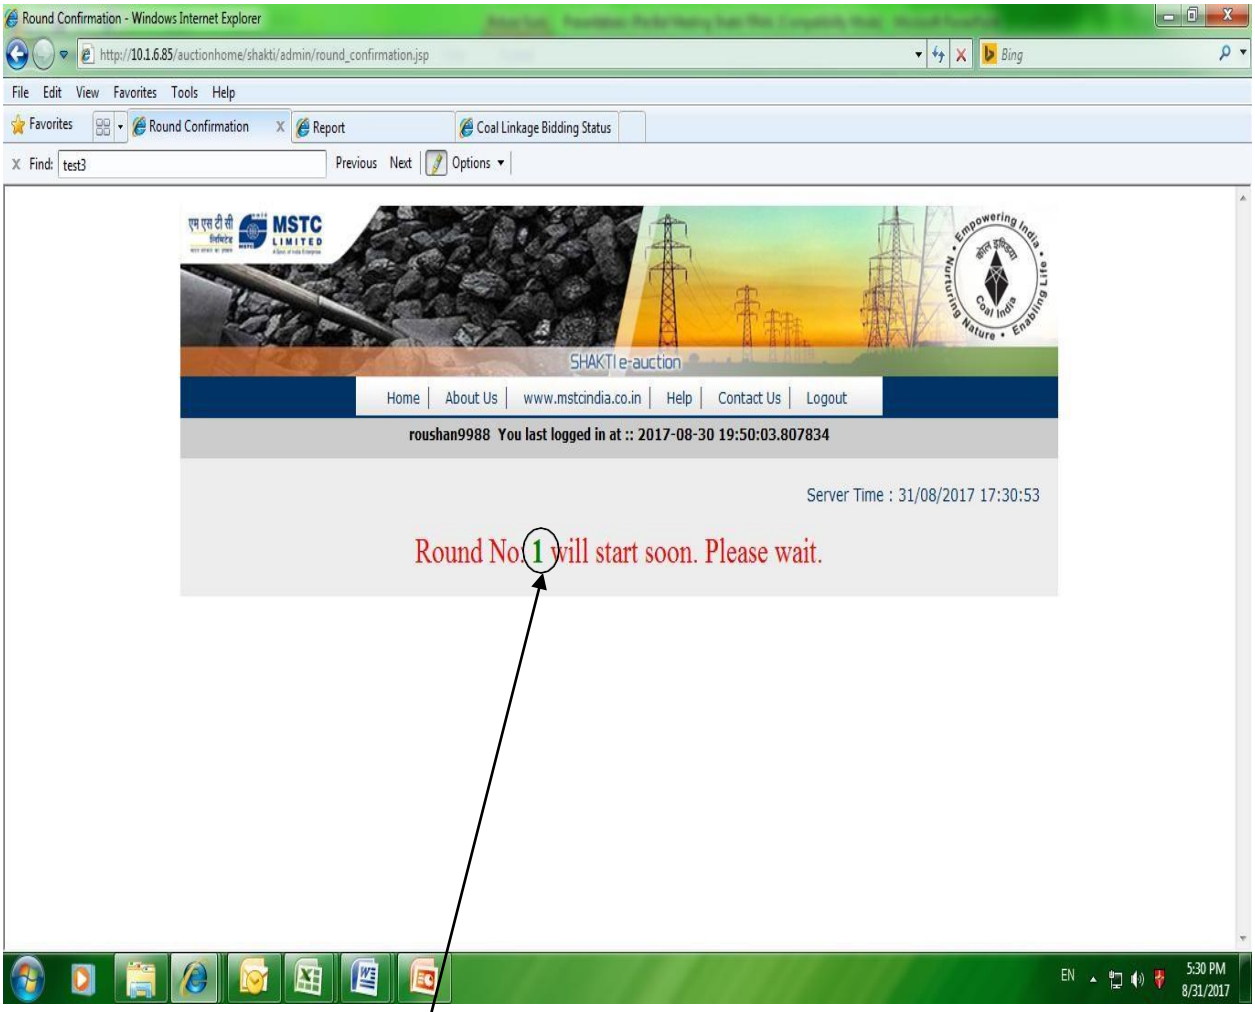


After signing the following page shall open.



The actual round number will be mentioned. In the above screen the screen shot is for round no 1.

In case a bidder wants to participate in a round press the Yes Button. Again the choice will have to be signed by the registered DSC. After signing the following page will open.



The actual round number will be mentioned. In the above screen the screen shot is for round no 1.

It may be noted that the bidders had a time period of 5 minutes in which the bidder has to submit its choice. After submission of choice the bidder will have to wait for the remaining period till total 5 minutes have exhausted. Once the 5 minutes have exhausted the SPO auction floor will open.

The auction floor will be available for the bidders for 10 minutes and the bidder has to enter the quantity which the bidder intends to book during the 10 minutes.

The rules of bidding are as follows.

I. Minimum Bid Quantity = 100000
II. Multiple of Bid Quantity = 100000
III. A bidder can submit only one bid against a source; BID button shall get disabled after one bid has been submitted for a source.
IV. A bidder can't bid against a source in a round for which it has already submitted a bid in earlier round or some quantity has been allotted to the bidder from that source through IPO. BID button shall remain disabled for the bidder for that source.
V. Every bid has to be digitally signed by the bidder.
VI. A bidder can't bid for quantity more than his balance EMD.

Once a round closes, the next round shall begin and the bidder may get the following screen in the intervening period.

For bidding in any round, the above process shall have to be followed.
